

# DRUG INTERACTIONS

Most people are polysubstance users. We use more than one things at a time. Because of this, it's important for us to know how the substances we use interact. When we combine substances we may reduce their benefits, amplify their effects, or even put our lives in danger. **GET INFORMED.**

**KEY** low risk (green) low risk +synergy (blue) low risk -decrease (grey) caution (orange) unsafe (pink) dangerous (red)

**WARNING**

alcohol opioids    alcohol benzos    opioids benzos

**NOTE:** If you are using more than one of these medications at the same time you can work closely with your prescriber to maximize the positive therapeutic benefits of these drug combinations while being careful to minimize the risks of taking them together.
